# WHY JOIN THE CHAMBER?

**Connections** – Business owners and operators you meet through the Chamber can become your clients and open doors to other resources to help grow your business.

**Credibility** – Consumers are 63% more likely to purchase from your business by being a Chamber member.

**Advocacy** – Your ability to influence public policy on common business problems becomes greater as more voices are added to advocate on behalf of businesses like yours.

**Resources** – The problems you face in business are likely shared by your fellow business community members. What better way to talk through difficulties or problems in your business than discussing with those who are walking on the same path as you?

**Intelligence** – We keep you informed so that you can concentrate on growing your business.

**Training** – The Chamber hosts countless programs to help you increase your skills in all aspects of your business.

**Involvement** – Consumers and business owners and operators want to do business with someone who is vested in their community.

**Marketing** – What better way to introduce your business to potential clients than through Chamber-sponsored events?

**Standing** – By participating on business committees and advancing into leadership positions, you are seen as an expert in your field.

**Giving** – When you give back to your community, you're helping others, and that helps the business community become stronger. When the business community is vibrant and strong, the local economy is stronger, and that is good for all businesses that depend on consumers' ability to spend in the local marketplace.

*Chambers of Commerce, from earliest inception in France in 1599, are places of unity, even among competitors. Their voices have come to wield influential power within government and communities, so much so that chambers continue to operate and develop throughout the world, even to the present day.*

# OUR MISSION

*To advocate and represent business interests and issues affecting Hardeman County. We provide the environment to help our members prosper and succeed through a proactive working partnership with all levels of government and community organizations to achieve a healthy local economy and quality of life.*
